To Whom It May Concern:

Re: Persistent Organic Pollutants in Alpha Wire Products

The Products of Alpha Wire in all colors and put-ups, except as noted below, do not contain any Persistent Organic Pollutants (POPs). Regulation (EU) 2019/1021 and (EU) 2023/1608 amendment on Persistent Organic Pollutants as updated on 22 July 2024.

Certain products of Alpha Wire contain Dechlorane Plus in the insulation material and/or UV-328 in the jacket material and hence, are not POP compliant. As Dechlorane Plus and UV-328 are SVHCs under REACH, one may check to see if a certain Part number is REACH compliant at [REACH-RoHS-Status](#). If a product is listed as non-REACH compliant, it may not be POP compliant.
