

PRODUCT CHANGE / END OF LIFE NOTICE

October 17, 2014

Dear Valued Customer,

The Alpha Wire portfolio requires regular maintenance to ensure our products continue to offer the most updated features and benefits, in addition to the highest quality. As you are aware, there are many reasons which cause a product to require a change or to reach an end-of-life status. These reasons include when products mature and are replaced by new technology, changing industry standards, lack of demand from the market, significant changes in the product itself, or the technology has come to a point where it is no longer cost effective.

Alpha Wire will be discontinuing the ZIP-41 Zipper Tubing™ product offering, effective immediately. Remaining inventory will be available for sale but will not be replenished once depleted. Customers interested in the ZIP-41 products should consider the GRP-130 split wrappable sleeving or the Type 492 slit loom tubing as alternatives for their wire management applications.
