

SecurePatch provides security for new and existing network components in an open 19" equipment rack. The SecurePatch cover provides a security solution to only the section of the rack space you need. Safe guard against unauthorized patch cord movement by retro-fitting loaded equipment racks with the added security of a lockable door.

Finally, there is that economical option which allows you to secure live equipment on open relay racks!

BENEFITS

- Adds security without network downtime
- Controls rack access
- Provides second level lock security
- Clamshell design allow back to back mounting of SecurePatch for securing front and rear
- No need to re-terminate
- Mounting flange allows one person to install each unit

FEATURES

- Can be rack or wall mounted on a backboard
- Slotted mounting flange allows for single person install
- Multiple side knock-out options allow for low/high capacity cable feed through
- Connecting bracket enables 11U/22U units to be connected in any combination, while allowing patch cord pass through from one unit to another

Replace (x) with door code: PK= Plexiglas, MK=Mesh, SK=Steel

SecurePatch Accessories

Belden Part Number	Description	Quantity
BSP-CBRKT	Connecting bracket - for retrofitting 2 SecurePatch together	1
BSP-LOCK-C1	Quarter-turn with 3 number combination lock	1
BSP-ADPLATE*	Adjustment plates for front and rear rack installation	2-pack

***Note:** BSP-ADPLATE encloses the gap between two SecurePatch covers installed back to back on a 3" deep equipment rack. When the adjustment plates are installed, inside usable mounting space is reduced by 2U.
