The Industry's Smallest-Diameter Category 6A Cable Designed for Smart Building Applications and Optimized for In-Building Wireless Networks

Combining the Category 6A performance you need with the Belden quality and reliability you expect, 10GXW Cables are the lightest, easiest-to-deploy solution available, eliminating slow speeds and maximizing uptime for smart building networks. For fast and easy termination, combine 10GXW with Belden’s REVConnect® Connectivity Line. These solutions are designed to work together to create a reliable, end-to-end wireless infrastructure.

Our End-to-End Expertise Your End-to-End Solution

**BENEFITS**
- Provide reliable, multi-gigabit network performance, eliminate slow network speeds and maximize uptime
- Reduce installation time and costs through direct-connect termination (MPTL) to any endpoint device using the REVConnect Plug or FlexPlug
- Speed up deployment using the smallest and lightest horizontal Category 6A cable available and maximize the number of cables within a conduit

**FEATURES**
- Best-in-class system noise immunity achieved through outstanding cable balance and pairing with the REVConnect Connectivity Line
- Designed for seamless termination with the innovative REVConnect Connectivity Line
- EquiBlock™ technology enables consistent, small cable diameters (0.250” CMP / 0.260” CMR) and eliminates hotspots

**KEY APPLICATIONS**
- In-building Wi-Fi
  - Wi-Fi 6 (802.11ax)
  - 802.11ac
- In-building small cells
- 100W Type 4 PoE

Reduce Installation Time and Costs by Combining with the REVConnect Connectivity Line

**RELIABLE**
REVConnect features a highly reliable termination for a secure, gas-tight connection that is proven to reduce rework at all category levels.

**EASY**
REVConnect’s universal wiring manager supports all UTP and STP CAT 5e, CAT 6 and CAT 6A cables with a single tool that covers all steps of the termination process, including cable preparation.

**VERSATILE**
The same universal core can terminate a jack or a plug. This means that field-terminateable plugs, which support CAT 6A and high PoE performance, can be terminated as quickly and easily as a jack.
